Subject: UPC: Announcing the EcoWise IPM Contracting Tool Kit

To the UPC:

EcoWise Certified has completed a groundbreaking new IPM Contracting Tool Kit, available online to help with designing an IPM program or developing contracts for structural IPM. Please see the announcement below.

Presentations on the IPM Contracting Tool Kit are available if you would like more information -- to arrange one, please contact Ted Shapas at ecowisecertified@comcast.net.

Please help spread the word by forward this announcement to other interested parties, or let me know of others so that I can forward this email to them.

EcoWise Certified announces:

EcoWise Certified is an independent, third-party certification program that distinguishes knowledgeable, leading-edge licensed pest management professionals who practice prevention-based pest control.

[EcoWise IPM Contracting Tool Kit](#)

This one-stop tool kit explains how to develop a structural IPM program and contract for IPM services

The EcoWise IPM Contracting Tool Kit for Public Agencies and Businesses

Whether you are developing a new IPM program or working to improve an existing one, the [EcoWise IPM Contracting Tool Kit](#) can help you achieve success.

The EcoWise IPM Tool Kit covers:

- elements to consider when developing an IPM policy
- roles and responsibilities of the agency or business in an IPM program
- how to hire and work with a professional IPM service provider.

The Tool Kit includes the EcoWise IPM Process along with a number of other helpful resources and sample documents. Find out what's working for others, from San Francisco to Boston, in the easy-to-search reference section.
